

Activating SmartWorks EZ Touch Plus

1. PROGRAM ARCHITECTURE

SmartWorks EZ Touch and SmartWorks EZ Touch Plus are the same program. SmartWorks EZ Touch Plus ships with its own USB licence or 'dongle'. If the dongle is removed from the computer running SmartWorks EZ Plus it will revert to the SmartWorks EZ Touch product – i.e. it will lose its enhanced 'Plus' features.

2. USING THE SMARTWORKS PRO LICENSE

SmartWorks EZ Touch can also be upgraded to SmartWorks EZ Touch with the SCAN & COPY dongle included in the Colortrac SmartWorks Pro SCAN & COPY product - P/N P007203.

Note that the dongle supplied with SmartWorks Pro SCAN or SmartWorks Pro COPY products WILL NOT activate SmartWorks EZ Touch Plus.

3. SUMMARY
